

Pre-Professional Guides

Pre-Dental Hygiene

Advisor: Dr. Rachel Schomaker

Although a dental hygiene program will be offered through Dakota College in Minot, ND, in the near future, the only dental hygiene program currently operating in North Dakota is offered at the ND State College of Science at Wahpeton. Dental hygiene is a two-year program with limited admissions. Admission is typically highly competitive. For consideration, the applicant must have at least one semester of chemistry and one of anatomy in college and a GPA of at least 2.5. Students interested in admission to the program at NDSCS may take the following courses at Minot State:

Required for admission to program:

ENGL 110	College Composition I	3
BIOL 220	Anatomy and Physiology I	4
BIOL 221	Anatomy and Physiology II	4
CHEM 118	General, Organic, and Biological Chemistry	4

Also recommended:

A second semester of chemistry covering principles of organic chemistry and biochemistry is desirable and can be fulfilled with the following courses:

CHEM 240	Fundamentals of Organic Chemistry	
CHEM 481	Biochemistry I	
MATH 210	Elementary Statistics	4

Optional:

BIOL 202	Introductory Microbiology	4
----------	---------------------------	---

General Education courses:

ENGL 120	College Composition II	3
COMM 110	Fundamentals of Public Speaking	3
PSY 111	Introduction to Psychology	3
SOC 110	Introduction to Sociology	3

Total Hours **35**

Pre-Mortuary Science

Programs in Mortuary Science lead to careers such as funeral director, embalmer, cremationist, and mortuary science practitioner. There are a variety of 2-year and 4-year mortuary science programs around the United States. Some programs are entirely face-to-face but many at least partially online. At Minot State University, students interested in mortuary science may take a number of preparatory courses prior to enrolling in a professional mortuary or funeral science program. Two local funeral homes, Thomas Family Funeral Home and Thompson-Larson Funeral Home may provide hands-on, practical experience for students selecting pre-mortuary science. Students from Minot State pre-mortuary science track have entered programs at The University of Central Oklahoma, Arapahoe Community College, Des Moines Area Community College, and the Dallas Institute of Funeral Services. The students will work with an advisor at MSU and local funeral homes to choose a professional program, allowing a specific set of Minot State University courses may be selected that best fits their needs. Courses listed below are commonly taken before or during the mortuary science training. Credits are shown at far right.

ENGL 110	College Composition I	3
ENGL 120	College Composition II	3
COMM 110	Fundamentals of Public Speaking	3
PSY 111	Introduction to Psychology	3
PSY 261	Psychology of Adjustment	3
MHA 423	Introduction to Counseling	3
Courses in Accounting and Business Ed		12
Courses in Health and Physical Education		5
BIOL 220	Anatomy and Physiology I	4
BIOL 221	Anatomy and Physiology II	4
BIOL 202	Introductory Microbiology	4
CHEM 121	General Chemistry I	5
CHEM 122	General Chemistry II	5

For licensure in North Dakota, the North Dakota Century Code requires:

Communications	12
Social Science	15
Natural Science	18

Pre-Wildlife Studies

The pre-wildlife studies program is designed to satisfy the basic requirements recommended by most universities offering degree programs in fields such as ecology, wildlife management, and fisheries management. The course requirements also fulfill the requirements for the first two years in biology. The program is sufficiently broad to enable the student to transfer at the end of two years to a college or university offering specialized curricula in various fields of wildlife studies.

The biology courses which a pre-wildlife student would typically take are:

Two semesters of Introductory Biology:

BIOL 150	General Biology I	4
BIOL 151	General Biology II	4
BIOL 154	Introduction to Botany	4
BIOL 340	Systematic Zoology	4
BIOL 347	General Ecology	4
BIOL 448	Systematic Botany	4

In addition to biology, the other recommended science courses are:

CHEM 121	General Chemistry I	5
CHEM 122	General Chemistry II	5
PHYS 211	College Physics I	4
PHYS 212	College Physics II	4

Total Hours

42

Pre-Law

Advisor: Daniel Ringrose

Adequate preparation for entrance into an accredited law school requires a bachelor's degree. No specific college major is required for admission to an American school of law. The Association of American Law School's "Statement of Association Policy on Pre-Legal Education" states that an appropriate pre-law education develops: (1) comprehension and expression in words; (2) critical understanding of the human institutions and values with which the law deals; and (3) creative power in thinking. Therefore, the pre-law program takes the form of recommended course in various disciplines and an advising service to help the student shape their program to meet specific interests. Advising is also available to aid in preparation for the LSAT and in the selection of a law school. The pre-law student should select a major field of study to demonstrate a mastery of a specific area. Traditionally, pre-law students have majored in the social science fields of economics, history, political science, or sociology. Non-social science disciplines such as criminal justice may also be selected as the major field of study. Selection of a major should be determined by the student's interests and career plans.

Non-Degree Advising: Pre-Law

Freshman

Fall	Hours	Spring	Hours

Total Hours: 127			

¹ For the first two years, the pre-law student is advised to take as many General Education credits as possible. In addition to fulfilling General Education requirements, this broad exposure will allow the student to discover what he or she finds interesting and does well in. Then the student should choose a major, minor, and a area of concentration which can be completed in the junior or senior years. The major, minor and concentration courses should hone the intellectual skills that will be required for success in law school. In short, any major, minor and concentration that enables the student to develop communication and critical thinking skills will constitute an acceptable minor for a future law school candidate.

These four-year matrices are possible with commitment, focus, and optimal conditions.

Pre-Seminary

Advisor:

The suggested curricula for pre-seminary students follows closely the curricula prepared by the American Association of Theological Schools. Such preparation should include an adequate background in English language and literature, history, philosophy, and at least one of the natural sciences. There should be proficiency in at least one foreign language. Additional courses are recommended in the areas of humanities and social sciences. A broad background in history, literature, and culture is recommended before theology and religion courses are attempted.

Students interested in more specialized areas may contact the chairperson of the Division of Social Science for a more detailed program.
