

# TRIO Student Support Services

---

TRIO Student Support Services (<https://www.minotstateu.edu/trio/>) serves students who are the first in their family to earn a four-year degree and/or students who fall within specified income guidelines (taxable income within 150% of the poverty level) and/or have a documented disability. Opportunities and enhanced resources are provided to these participants to help them succeed as they complete their post-secondary education. TRIO offers a range of services, including peer mentoring, tutoring, additional academic advising, career planning, financial aid counseling, study skills tips, workshops, and additional resources to help students maximize their MSU experience.

TRIO Student Support Services is funded by a grant from the U.S. Department of Education and serves U.S. citizens working on their first bachelor's degree.
